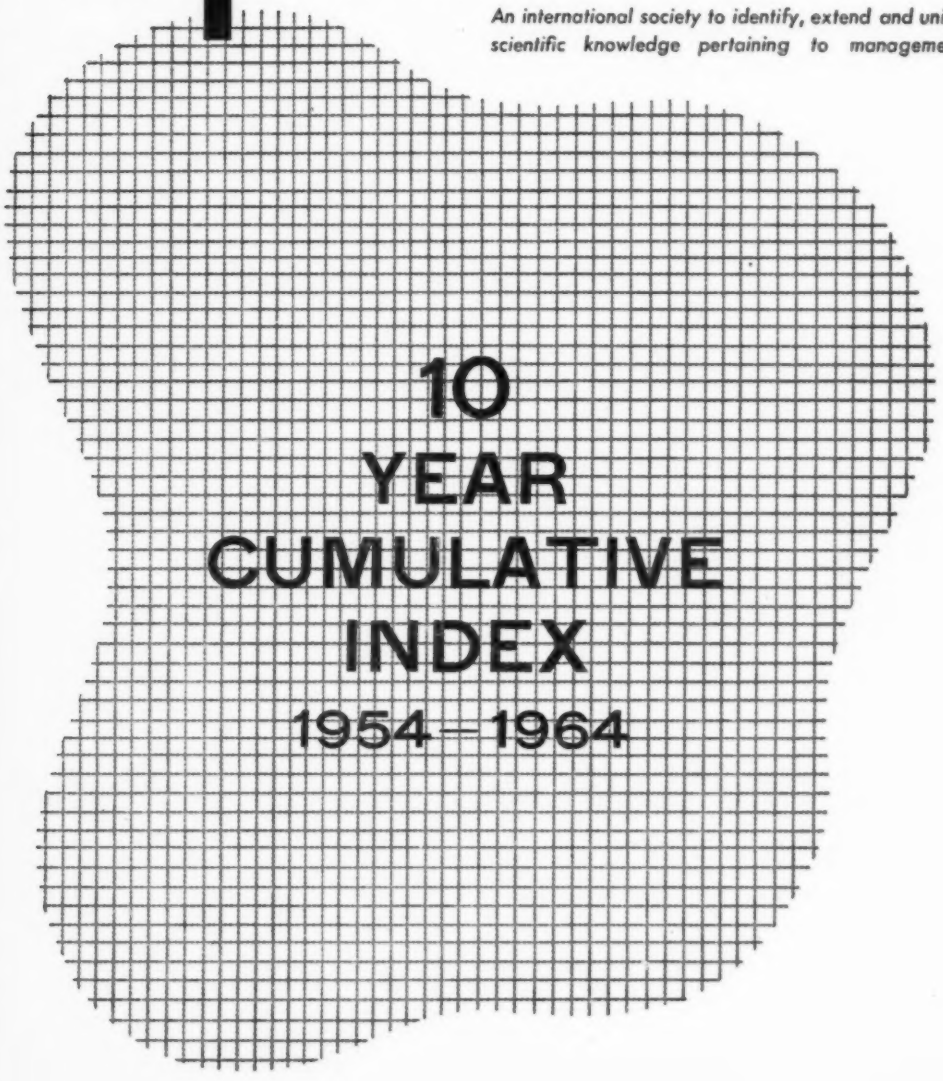
Management Science

JOURNAL OF THE INSTITUTE OF MANAGEMENT SCIENCES

An international society to identify, extend and unify scientific knowledge pertaining to management



MANAGEMENT SCIENCE

Series A: Sciences Section

Editor-in-Chief, ROBERT M. THRALL, Dept. of Math., W. E., Univ. of Michigan, Ann Arbor, Mich.

Editors:

JEAN M. ABADIE, Electricite de France, 12 Pl. des Etats-Unis, Paris 16, France
E. LEONARD ARNOFF, Ernst & Ernst, Union Commerce Bldg., Cleveland 14, Ohio
EDWARD BARANKIN, University of California, Berkeley 4, Cal.
ALEX BAVELAS, Dept. of Psychology, Stanford University, Stanford, Cal.
E. M. L. BEALE, C-E-I-R Ltd., 30 Newman St., London, W.1, England
THOMAS E. CAYWOOD, (Editor, *Operations Research*) Peat, Marwick, Caywood, Schiller & Co., 203 N. Wabash Ave., Chicago 1, Ill.
A. CHARNES, Northwestern University, Evanston, Illinois
C. WEST CHURCHMAN, School of Bus. Admin., Univ. of California, Berkeley 4, Cal.
ANDREW J. CLARK, The RAND Corporation, 1700 Main Street, Santa Monica, California 90406
S. L. COOK, C-E-I-R Ltd., 30 Newman St., London W.1, England
WILLIAM W. COOPER, Carnegie Institute of Technology, Pittsburgh 13, Pa.
BURTON V. DEAN, Case Institute of Technology, Cleveland 6, Ohio
RALPH L. DISNEY, Industrial Engineering, University of Michigan, Ann Arbor, Michigan 48104
GEORGE J. FEENEY, General Electric Co., 570 Lexington Avenue, New York, N. Y. 10022
MURRAY A. GEISLER, The RAND Corp., 1700 Main St., Santa Monica, Cal.
RONALD A. HOWARD, Institute in Engineering-Economic Systems, Stanford University, Stanford, California 94305
MORTON KLEIN, Columbia University, New York 27, N. Y.
HANS P. KÜNZI, University of Zurich, Zurich, Switzerland
JACOB MARSCHAK, Western Management Science Inst., Univ. of Cal., Los Angeles 24, Cal.
ROY RADNER, Department of Economics, University of California, Berkeley 4, Cal.
PHILBURN RATOOSH, Center for Research in Management, Stephens Hall, University of California, Berkeley, California 94720
M. G. SIMPSON, Univ. of Lancaster, Bailrigg House, Lancaster, England
W. ALLEN SPIVEY, School of Business Admin., University of Michigan, Ann Arbor, Mich.
HENRI THEIL, Econometric Institute, Rotterdam, The Netherlands
J. TORRENS-IBERN, Escuela Tecn. Sup. Ingenieros Industriales, Barcelona 14, Spain
RICHARD L. VAN HORN, The RAND Corp., 1700 Main St., Santa Monica, Cal.
ANDREW VAZSONYI, North American Aviation, Inc., El Segundo, California
ARTHUR F. VEINOTT, JR., Industrial Engineering, Stanford Univ., Stanford, Cal.
MICHEL VERHULST, 170, Avenue Paul Doumer, Rueil-Malmaison, Seine-et-Oise, France
H. WOLD, University Institute of Statistics, Uppsala, Sweden
JAN M. ZIELENIEWSKI, Polish Academy of Sciences, Palac Staszica, Warsaw, Poland

Editor-in-Chief, 1954–1960, C. WEST CHURCHMAN

Associate Editors—Retired

MARTIN J. BECKMANN
GEORGE BROWN
ROBERT L. CHAPMAN
M. L. HURNI
DANIEL KATZ
SEBASTIAN B. LITTAUER
ALAN S. MANNE
MAX A. WOODBURY

CUMULATIVE INDEX FOR VOLUMES 1–10

Author Index

ABRUZZI, A., Formulating a theory of work measurement, **2**, 114.

——, Rational systems and logics of action: the factory situation, **5**, 369.

ACKOFF, R. L., Automatic management: a forecast and its educational implications, **2**, 55.

——, Towards a behavioral theory of communication, **4**, 218.

——, see M. W. MARTIN.

ADLER, F. P., Relationships between organization size and efficiency, **7**, 80.

ALDERSEN, W. AND SHAPIRO, S. J. HEIN's *An introduction to electronic data processing for business:* Book Review, **8**, 109.

ALDERSON, W., CHURCHMAN's *Prediction and optimal decision:* Book Review, **8**, 375.

ALLAIS, M., Method of appraising economic prospects of mining exploration over large territories: Algerian Sahara case study, **3**, 285.

ALLEN, L. E., Toward more clarity in business communications by modern logical methods, **5**, 121.

ALLEN, S. G., A redistribution model with set-up charge, **8**, 99.

——, Computation for the redistribution model with set-up charge, **8**, 482.

ANDERSON, R. L., see R. M. ZAKI.

ANSHEN, M., Management science in marketing: status and prospects, **2**, 222.

ANSOFF, H. I., A model for diversification, **4**, 392.

ANTOSIEWICZ, H. AND HOFFMAN, A., A remark on the smoothing problem, **1**, 92.

ARGYRIS, C., MAIER, SOLEM and MAIER's *Supervisory and executive development:* Book Review, **4**, 321.

ARMOUR, G. C. AND BUFFA, E. S., A heuristic algorithm simulation approach to relative location of facilities, **9**, 294.

ARONOFSKY, J. S. AND WILLIAMS, A. C., The use of linear programming and mathematical models in underground oil production, **8**, 394.

ARROW, K. J., Control in large organizations, **10**, 397.

ARTLE, R. AND BERGLUND, S., A note on manufacturers' choice of distribution channels, **5**, 460.

ASIMOW, M., see R. C. SPROWLS.

BACH, G. L., Some observations on the business school of tomorrow, **4**, 351.

BAKER, C. T., see B. P. DZIELINSKI.

—— AND DZIELINSKI, B. P., Simulation of a simplified job shop, **6**, 311.

BALDERSTON, F. E., Communication networks in intermediate markets, **4**, 154.

——, Letters to the Editor, **4**, 479.

BALIGH, H. H. AND RICHARTZ, L. E., An analysis of vertical market structures, **10**, 667.

BALINSKI, M. L. AND GOMORY, R. E., A primal method for the assignment and transportation problems, **10**, 578.

BALINTFY, J. L., On a basic class of multi-item inventory problems, **10**, 287.

BARISH, N. N., HEYEL's *Handbook of industrial research management:* Book Review, **7**, 448.

BASS, B. M., McGEHEE and THAYER's *Training in business and industry:* Book Review, **8**, 372.

——, Business gaming for organizational research, **10**, 545.

—— AND LEAVITT, H. J., Some experiments in planning and operating, **9**, 574.

BAUMOL, W. J., An expected gain-confidence limit criterion for portfolio selection, **10**, 174.

—— AND IDE, E. A., Variety in retailing, **3**, 93.

BEALE, E. M. L., Letters to the Editor, **4**, 110.

BECKMAN, M. AND MUTH, R., An inventory policy for a case of lagged delivery, **2**, 145.

—— AND ——, Letters to the Editor, **3**, 197.

BECKMANN, M., An inventory model for arbitrary interval and quantity distributions of demand, **8**, 35.

BELLMAN, R., On the theory of dynamic programming—a warehousing problem, **2**, 272.

——, Dynamic programming and the smoothing problem, **3**, 111.
——, On a dynamic programming approach to the caterer problem—I, **3**, 270.
——, On the computational solution of linear programming problems involving almost-block-diagonal matrices, **3**, 403.
——, Notes on the theory of dynamic programming—transportation models, **4**, 191.
——, ARROW, KARLIN and SCARF's *Studies in the mathematical theory of inventory and production:* Book Review, **5**, 139.
——, KIPINIAK's *Dynamic optimization and control, a variational approach:* Book Review, **8**, 374.
——, GLICKSBERG, I. AND GROSS, O., On the optimal inventory equation, **2**, 83.
BERGLUND, S., see R. ARTLE.
BERMAN, E. B., A regional production and transportation model, **5**, 319.
——, Resource allocation in a PERT network under continuous activity time-cost functions, **10**, 734.
BERMAN, S. M., GRENANDER and ROSENBLATT's *Statistical analysis of stationary time series:* Book Review, **6**, 503.
BHATTACHARYYA, B. B., see R. M. ZAKI.
BHENDE, V. P., Development planning in underdeveloped countries, **10**, 796.
BIEL, W. C., see R. L. CHAPMAN.
BISHOP, A. B., see G. F. LINDSAY.
BISHOP, C. E., see R. A. KING.
BLAKE, R. R. AND MOUTON, J. S., Reactions to intergroup competition under win-lose conditions, **7**, 420.
BOMBERGER, E. E., Optimal inventory depletion policies, **7**, 294.
BONINI, C. P., Decision rules for buffer inventories, **4**, 457.
BOOT, J. C. G., Notes on quadratic programming: the Kuhn-Tucker and Theil-van de Panne conditions, degeneracy and equality constraints, **8**, 85.
——, On trivial and binding constraints in programming problems, **8**, 419.
BORCH, K., A note on utility and attitudes to risk: Communications to the Editor, **9**, 697.
BOSJE, P., see C. VAN DE PANNE.
BOUBLI, E. J., *Proceedings of the 1959 computer applications symposium:* Book Review, **8**, 110.
BOULDING, K. E., General systems theory—the skeleton of science, **2**, 197.
BOUTELL, W. S., GREGORY and VAN HORN's *Automatic data-processing systems: principles and procedures:* Book Review, **10**, 597.
BOVAIRD, R. L., Characteristics of optimal maintenance policies, **7**, 238.
——, GOLDMAN, A. S. AND SLATTERY, T. B., Concepts in operational support research, **8**, 113.
BOWERMAN, E. R. AND LITTAUER, S. B., Operations engineering, **2**, 287.
BOWES, A. E., see H. GUETZKOW.
BOWMAN, E. H., LAITALA's *Engineering and organization:* Book Review, **6**, 499.
——, Consistency and optimality in managerial decision making, **9**, 310.
BOYES, F., see J. S. KIDD.
BRODSKY, N., ECCLES' *Logistics in the national defense:* Book Review, **7**, 93.
——, MILLER and STARR's *Executive decisions and operations research:* Book Review, **7**, 96.
BUFFA, E. S., see G. C. ARMOUR.
——, see A. REISMAN.

CANDLER, W. AND TOWNSLEY, R. J., The maximization of a quadratic function of variables subject to linear inequalities, **10**, 515.
CARLIN, F. C., The use of a large scale computer for manufacturing control, **4**, 177.
CARR, C. R. AND HOWE, C. W., Optimal service policies and finite time horizons, **9**, 126.
CASSELL, F. H., see F. H. HARBISON.
